

WE PROVIDE LEADERSHIP IN DENTISTRY

Egregio Dottore,

Abbiamo il piacere di presentarLe il programma del prossimo Stage di Perfezionamento :

“ Implantology and Oral Rehabilitation ”

che si svolgerà presso il New York University College of Dentistry dal prossimo 28 OTTOBRE AL 1 NOVEMBRE 2013.

Il College of Dentistry della New York University, oggi la più grande Scuola privata di Odontoiatria degli Stati Uniti, organizza con successo da 30 anni gli **Stage di Specializzazione** dedicati a dentisti stranieri. Questi Stage, della durata di una settimana l'uno, sono articolati in lezioni teoriche, laboratori, esercitazioni pratiche, video live surgeries , etc. che insegnanti del College of Dentistry della NYU o Relatori di fama espressamente invitati preparano e svolgono su diversi temi odontoiatrici.

Gli Stage sono a numero chiuso e sono organizzati con un servizio di **TRADUZIONE IN ITALIANO**, tranne durante il Symposium, dando così la possibilità di seguire le lezioni anche a chi non parla correntemente la lingua Inglese.

La New York University rilascia un attestato di partecipazione alla fine di ogni settimana di lezioni. Al termine del Programma completo di frequenza a sei settimane di Stage (almeno 4 seguite negli U.S.A.) e la presentazione del FINAL WRITTEN REPORT su due casi clinici trattati, viene rilasciato ai partecipanti ***P'International Achievement Certificate in IMPLANTOLOGY & ORAL REHABILITATION.***

La quota di iscrizione allo STAGE è di €2.300 ed è comprensiva di : tasse universitarie, materiali di laboratorio e didattici, coffee-breaks, pranzi.

PROGRAMMA DI VIAGGIO e QUOTE DI PARTECIPAZIONE

Naturalmente l'occasione di studio è anche di vacanza essendo la New York University situata sulla centralissima First Avenue a Manhattan, proprio nel cuore della Grande Mela! Sarà così per Lei possibile visitare agevolmente New York e familiarizzare con questa città unica al mondo.

Per la prenotazione di viaggio ed alloggio le suggerisco di provvedere QUANTO PRIMA alla prenotazione per mezzo dei diversi siti disponibili sul web (Expedia.it – Volagratis – Last minute, etc.) che le potranno offrire una ampia gamma di proposte. In generale un volo dall'Italia e ritorno, prenotato per tempo, costa da € 350,00 a € 750,00 un buon Hotel a Manhattan da €200 a €300 per notte.

Per ogni ulteriore informazione ci potrà contattare in segreteria al numero 3339553450.

New York University College of Dentistry
Linhart Continuing Dental Education Program

*“Current Concepts in American Dentistry:
Advances in Implantology and Oral Rehabilitation”*

October 28 - November 1, 2013

Monday, October 28, 2013 9:30 a.m. – 4:00 p.m.

Dr. Christian F.J. STAPPERT D.D.S., M.S., Ph.D.

Dr. Christian Stappert is Professor and Director of Implant Periodontal Prosthodontics at the Department of Periodontics at the University of Maryland School of Dentistry. He served several years as Director of Aesthetics and Periodontal Prosthodontics at the Department of Periodontology & Implant Dentistry associated with the Department of Biomaterials & Biomimetics at New York University College of Dentistry. He earned a D.D.S. and his doctorate from the Johannes-Gutenberg-University Mainz, Germany. Dr. Stappert is a board-certified Prosthodontist in Germany and remains Associate Professor of the Department of Prosthodontics at the Albert-Ludwigs-University Freiburg, Germany. He is cross-trained in Periodontal and Implant Surgery and graduated ‘Master of Science - Biomaterials and Biomimetics’ at New York University. His research interests involve the reliability of dental materials and clinical restorations, as well as tissue management and perio-implant interface. Dr. Stappert is the author of book chapters and several peer reviewed publications. He is editorial board member and reviewer of numerous scientific dental journals and has presented his work at national and international conferences.

“The Art of Successful Soft Tissue Management”

Advanced implant dentistry faces the challenge of tooth and implant restorations close to each other. To achieve esthetic satisfying results, an appreciable width and thickness of attached gingival is desirable around implants and teeth. Due to alveolar ridge defects, tooth extractions or previous restorations the soft tissue appearance is often compromised. Full thickness flap designs unveil their limitations when additional vertical or horizontal volume should be gained or if extended augmentation areas should be covered by soft tissue. Common surgical procedures result in an extension of mucosa up to the alveolar ridge and a displacement of the muco-gingival-line repeatedly. Different surgical procedures like apical reposition flaps or free gingival grafts etc are required to re-establish lost attached gingival and healthy soft tissue color. The knowledge of soft tissue management and the ability to choose the right surgical soft tissue procedure in a given situation creates the foundation for an outstanding prosthetic restoration.

4:00 p.m.- 5:00 p.m.

Dr. Giuseppe BAVETTA

D.D.S. Universita' degli Studi di Palermo, Italy, Master in “Implantologia clinica e biomaterial” Universita' di Chieti, Italy ; Master in “Laser in odontostomatologia” Universita' “La Sapienza” di Roma, Italy . Graduate in “Implantology and Oral Rehabilitation” New York University College of Dentistry , Continuing Dental Education Programs. Starting 2010 is Tutor in the “New York University College of Dentistry Italy Tutor Project Program”. From 2013 invited speaker at the Zimmer Institute di Winterthur, Switzerland. Private practice in Palermo, Italy

“Surgical and Prosthetic Strategies for the Aesthetic Success in Implantology”

Tuesday, October 29, 2013 9:00 a.m. – 4:00 p.m.

Dr. Michael SONICK

Former Assistant Clinical Professor of Surgery, Yale School of Medicine; Guest Lecturer for CDE International Programs at New York University College of Dentistry; Editorial Board for Compendium of Continuing Dental Education, Functional Esthetics and Restorative Dentistry, Inside Dentistry, Dental XP, and Journal of Implant and Advanced Clinical Dentistry; Founder and Director of Fairfield County Dental Club and Sonick Seminars; Member, American Academy of Periodontology; Private Practice of Periodontics and Dental Implants, Fairfield, Connecticut.

“Implant Treatment in the Aesthetic Zone”

Implant dentistry is now part of routine dental treatment. It is no longer enough for an implant to merely osseointegrate; it must be esthetic as well. The maxillary anterior dental implant is perhaps the most challenging for the clinician. A multiplicity of techniques must be mastered including but not limited to ideal implant placement, proper surgical technique, bone augmentation, soft tissue development and proper restoration.

Prof. Rolando CRIPPA MD, DDS, MFSS 4.00 p.m. – 5.00 p.m.

Founder member of I.A.H.T. (International Association of High Technologies), member of S.I.P.M.O., (Italian Society of Oral and Medicine Pathology), member of S.I.O.I. (Italian Society of Pediatric Dentistry) board member of Laser Education International (LEI), Vice-President and Clinical Coordinator of C.D.E. Italian Graduates Association College Of Dentistry New York University, member of A.L.D. (Academy of Laser Dentistry). Head of Department of Oral Pathology and Laser-therapy (Italian Stomatologic Institute of Milan, Italy). Contract Professor at University of Genua, Italy. Adjunct Professor for the International MSc “Laser in Dentistry” 2013-14 (University of Genua), Adjunct Professor for the MSc EMDOLA (European Master Degree on Oral Laser Applications) in University of Parma (Italy) and Nice (France) 2007-13, Adjunct Professor for the MSc in Oral Pathology (University of Milano-Bicocca, Italy) 2008-2010. Author of many papers in national and international journals and books of Oral Pathology and Laser Therapy.

"Laser ErCr:YSGG assisted decontamination of infected surgical sites for immediate loading implants : preliminary study "

The long-standing assumption that active infection is a contraindication for immediate implant placement has been challenged recently. High implant survival rates have been reported even when implants were placed immediately in infected extraction sites. The combined use of an erbium laser with PRGFs or guided bone regeneration (usually performed to fill the bone-implant gap and/or socket) with an antibiotics systemic therapy, during an immediate implant placement procedure can be considered a safe, effective, and predictable treatment option for the rehabilitation of fresh postextraction infected pockets. The aim of the present preliminary study is to describe the use of an ErCr:YSGG laser 2780nm in the treatment of infected sites for reduce, with the photoacoustics energy, the bacteria in pockets sites that were infected by apical or periodontal pathology.

Wednesday, October 30, 2013 9:00 a.m. – 4:00 p.m.

George E. ROMANOS, DDS, PhD, Prof. Dr.med.dent.

Professor and Associate Dean for Clinical Affairs, Stony Brook University School of Dental Medicine, Stony Brook, New York; Adjunct Professor of Clinical Dentistry & Director of the Unit of Laser Dentistry at Eastman Institute for Oral Health in Rochester, New York; Former Clinical Professor, Department of Implant Dentistry, New York University College of Dentistry; Tenure Professor (Prof. Dr.med.dent) of Oral Surgery and Implant Dentistry, Johann Wolfgang Goethe University Frankfurt, Germany; Specialty Training in Periodontics, Prosthodontics and Oral Surgery in Germany and in USA. Diplomate, American Board of Periodontology, Fellow of Int. College of Dentists, ITI Foundation and ASLMS; Editorial Board for Int J Oral & Maxillofac. Implants, Clinical Impl Dent and Related Res, J Prosthodontics, NY State Dent J, Associate Editor for J Osseointegration and Odontology; author of 3 books on Lasers and on Immediate Loading (Quintessence); more than 250 publications and book chapters; well-known national and international speaker.

“Complications and their Management in Implant Dentistry”

This one-day course presents the main surgical complications in Implant Dentistry from the treatment planning to the long-term success. The presenter will focus on the intraoperative, postoperative, postimplantological complications in the soft and hard tissues. He will also present anatomical considerations in the maxilla and mandible, such as problems in the preparation of the anatomical structures, in the sinus procedures, the problems from the wrong implant positioning, the grafting techniques and their effects in Implantology. The treatment of periimplant mucositis and periimplantitis is only one part of this course. The management of soft and hard tissue problems to improve the clinical outcome will be illustrated with a high number of clinical examples. A course for every clinician, who wants to be an expert.

Thursday, October 31, 2013 **9:00 a.m. – 4:00 p.m.**

Prof. Marco BALDONI **9.00 a.m. – 10.00 a.m.**

Direttore Università degli Studi di Milano-Bicocca, FACOLTÀ DI MEDICINA E CHIRURGIA, Dipartimento di Neuroscienze e Tecnologie Biomediche, Cattedra di Clinica Odontoiatrica, U. O. di Odontostomatologia, Corso di Laurea Specialistico in Odontoiatria e Protesi Dentaria, Corso di Laurea in Igiene Dentale, Scuola di Specializzazione in Chirurgia Odontostomatologica

"Rigenerazione ossea e implantologica: ricerca applicata in aumento di volume osseo"

FINAL WRITTEN REPORTS PRESENTATION SESSION

(10.00 a.m. – 11:00 a.m.)

NYU FACULTY: Prof. H.Kendall BEACHAM

REPORT ADVISOR: Prof. Saverio RAVAZZOLO

Giuseppe CARDAROPOLI DDS, PhD **11.30 a.m. – 4.00 -p.m.**

Head, Periodontology Unit Director of Research in Periodontology Vita-Salute San Raffaele University - School of Dentistry Milan, Italy - Dr. Giuseppe Cardaropoli is an authority in Experimental Research in Periodontology and Implantology has been appointed as an Assistant Professor in Periodontology and Implant Dentistry at NYU College of Dentistry in 2006. Former Director of Experimental Research in the Department of Periodontology and Implant Dentistry at NYU. Dr. Giuseppe Cardaropoli became D.D.S. at the University of Turin, Italy. He Holds the Speciality in Periodontology and the PhD in Periodontology at Goteborg University, Sweden. He got the Certificate in Oral biology, in Advance Biomaterials and in Experimental Laboratory Animal Science at Goteborg University.

“Ridge Preservation, Immediate Implant Placement, Aesthetic Challenges and Provisionals for Papilla Regeneration”

Prof. Saverio RAVAZZOLO

Adjunct Associate Professor New York University College of Dentistry, Department of Cariology and Comprehensive Care; Italy Program Director New York University College of Dentistry Continuing Dental Education Programs; President “New York University College of Dentistry Italian Graduates Association”, Prof. a C. Master in L. Laser Terapia Università degli Studi di Cagliari-Italy, former Prof. a C. Od. Conservativa VI Università degli Studi di Genova, Italy, prof. a C. Scuola di Specializzazione in Chirurgia Orale Università degli Studi Milano Bicocca, Italy. Private Practice in Portogruaro-Venezia, Italy

“ Social Six Aesthetic Challenges in Daily Practice”

(4.00 p.m. – 6.00 p.m.)

Friday, November 1, 2013 **8:30 a.m. – 1:00 p.m.**

XXIV ANNUAL NYU / ICOI IMPLANT SYMPOSIUM

Senza traduzione in italiano

“Controversies and Clinical Challenges in Dental Implantology”

Dr. Jeffrey Babushkin is a nationally recognized expert in cosmetic dentistry and implant restorations. As a leader in the field, he lectures extensively on advanced implant technology and achieving superior aesthetic results. A graduate of **The Ohio State University** where he earned his Doctor of Dental Surgery, he completed a general practice residency at the **University of Maryland Hospital**.

Dr. Babushkin is committed to ongoing professional development in order to continually expand and refine his professional, clinical and technological skills and insight. He received a Fellowship in the **Academy of General Dentistry** after completing 500 continuing education hours and passing a rigorous exam. Dr. Babushkin is one of only 7% of general dentists who have achieved this honor. Dr. Babushkin is also a Fellow in the **International Congress of Oral Implantology** which required extensive continuing education hours and successful implant case documentation. Dr. Babushkin was

recently recognized as a Fellow in the **Pierre Fauchard Academy**, an international organization that recognizes professionalism, integrity and ethics in the field of dentistry. Fellowship in this prestigious Academy is by nomination by professional dental leaders and recognizes outstanding achievements in dentistry. Dr. Babushkin recently passed the **American Academy of Cosmetic Dentistry** accreditation exam and is preparing clinical cases to present to this organization which is dedicated to advancing excellence in the art and science of cosmetic dentistry.

Dr. Andrea Chierico, DDS

1982-87 Università degli studi di Padova. Laurea in Odontoiatria e protesi dentaria

1987-91 lavora nel reparto di odontoiatria e chirurgia maxillo facciale dell' ospedale di Borgo Trento (VR)

1992-94 Università di Boston (USA) Specialità in Parodontologia

1993-94 Istruttore in parodontologia presso "l'undergraduate department" Università di Boston Dal 1995 al 2001 insegna presso la clinica di Abano a Terme (PD) nel corso post-universitario di Parodontologia (Università degli studi di Padova). Nel 1994 collabora con Brown University (USA) e l'Università degli studi di Padova conducendo

ricerche sperimentali per quello che riguarda la rigenerazione ossea. Dal 1995 pratica come libero professionista a San Pietro Incariano (VR) e a Verona. Dal 2000 collabora con l'Università di Modena e Reggio Emilia (dir. Prof. Ugo Consolo) per ciò che riguarda l'insegnamento nel corso post laurea di chirurgia orale ed implantologia. Relatore a congressi nazionali ed internazionali ed autore o co-autore di pubblicazioni scientifiche. È socio della "SIDP", dell'"ANDI" e della "American Accademy of Periodontology". Socio Attivo Società Italiana di Osseointegrazione(SIO).

Dr. German Gallucci

, Clinical Associate in Harvard School of Dental Medicine, is Assistant

Professor of Restorative Dentistry and Biomaterials Sciences, Harvard School of Dental Medicine, Department of Restorative Dentistry and Biomaterials; received his Doctorate in Dental Medicine (Dr. Med. Dent.) from the University of Geneva, Switzerland. He attended a postdoctoral training at the Department of Fixed Prosthodontics and Occlusion, School of Dental Medicine, University of Geneva where he later became a full-time faculty at the same department. Dr Gallucci also received a Ph.D. from the Free University of Amsterdam. In 2007, Dr. Gallucci established a new Postgraduate Education Program in

Oral Implantology at Harvard School of Dental Medicine. Currently, he is the Head of the Division of Regenerative and Implant Sciences in the Department of Restorative Dentistry and Biomaterials Sciences.

Dr. Gallucci participates in lectures, seminars, practical courses and table clinics at national and international meetings and symposia. He authored scientific publications in the field of Fixed Prosthodontics and Implant Dentistry and his work has been mostly published in international peer-reviewed journals. Dr. Gallucci serves as an editorial board member for Journal of Dental Research (JDR), Clinical Oral Implants Research (COIR), and International Journal of Oral and Maxillofacial Implants (IJOMI). He is a fellow of the International Team for Implantology (ITI), Switzerland, an active member of the Academy of Osseointegration and the European Academy of Osseointegration. Dr. Gallucci actively participates in clinical and translational research related to Fixed Prosthodontics, Oral Implantology, and applied Digital Dental Technology. He is the Principal Investigator (PI) of the Oral Implantology clinical research team at the Division of Regenerative and Implant Sciences, Harvard School of Dental Medicine.

Ady PALTY, DDS

Ady Palti, DDS, Baden Baden/Germany, currently professor at New York University College of Dentistry and clinical professor at Boston University Dental School Center of Implantology and at Temple University Philadelphia Department for Periodontology & Implantology. He is past president of the German Society of Oral Implantology (DGOI) and past President of the International Congress of Oral Implantologists (ICOI). Ady Palti lectures worldwide and publishes on new technologies in oral implantology - main focus on 3D technologies and immediate loading. Private practice in Baden-Baden Germany limited to implantology and esthetic dentistry. He is involved in development of surgical instruments, implant design, membranes and augmentation materials since 1980. Director of the International Academy of Implantology (IAI) in Baden Baden.

James A. RIVERS, D.M.D., M.H.S

Dr. James A. Rivers is Professor and Chair, Department of Oral Rehabilitation at the College of Dental Medicine, Medical University of South Carolina. He completed his prosthodontics residency and Master in Health Sciences at MUSC. Dr. Rivers is a fellow of the American College of Dentists and the International College of Dentists. He is a member of the ADA, American College of Prosthodontists, Academy of Osseointegration, American Academy of Implant Dentistry and the International Congress of Oral Implantologists. He has received numerous teaching awards and received the Meritorious Achievement Award by the South Carolina Dental Association for his contribution to dental education and establishment of the dental implant educational program at MUSC. He is the recipient of the 2006 Outstanding Clinician Award at the Medical University of South Carolina. He has presented over 200 invited local, state, national and international lectures. Dr. Rivers maintains an active intramural practice limited to oral rehabilitation, prosthodontics and dental implants. He is active in dental continuing education, lecturing nationally and internationally on dental implants and oral rehabilitation. Dr. Rivers has 30 years of experience treatment planning and restoring various implant systems. He has a practical approach to treatment planning, case presentation, restorative techniques for esthetics, single and multiple unit restorations, fixed-detachable hybrid restorations and overdentures. His lectures provide valuable information on the latest materials and techniques for implant dentistry.
